Health, Safety & Welfare Policy

Introduction

This policy is written within the framework of the Health and Safety at Work etc. Act 1974 and its subsequent Regulations. It is to be read in conjunction with the Corporate Health, Safety and Welfare Policy of the London Borough of Redbridge. A copy of the Corporate Health, Safety and Welfare policy should be displayed in the main office.

It will be reviewed, added to, or modified from time to time and may be supplemented in appropriate cases by further statements related to the work of the Service Area. Copies and subsequent amendments will be made available to all employees.

The success of this Policy depends on the active support of all employees to achieve its objectives.

The Establishment recognises the need for a well-defined policy setting out the standards it aims to achieve for protecting the health, safety and welfare of staff, pupils and others.

This Health, Safety and Welfare Policy sets out the organisation and arrangements for achieving this aim including the detailed responsibilities for key staff.

1 Policy Statement

This Establishment will provide a safe and healthy working and learning environment for staff, pupils and visitors, this will be achieved by implementing the health and safety objectives detailed in this Policy.

This Establishment attaches great importance to the health, safety and welfare at work of all its employees and other users, particularly children, parents and visitors. This Establishment will provide for its employees whilst working on the premises or elsewhere:

- Safe machinery and equipment, including vehicles;
- Articles and substances for use at work that are safe when properly used, stored, handled and transported
- Information, instruction, training and supervision to enable employees to work safely without risk to their health;
- Premises and places of work that are well maintained, have safe access and egress for all and are without risk to health & safety;
- Adequate welfare facilities

Although the prime responsibility for health and safety under the Health and Safety at Work Act lies with the Establishment, as the employer, high standards of health, safety and welfare can only be achieved with the full co-operation and awareness of all staff.

Ms Chantal Pampellonne (Head of Establishment)

Mr Damian Atkinson (Chair of Governors)

1.1 Professional Advice

The London Borough of Redbridge (LBR) employs a team of professionally qualified Health and Safety staff who are available to assist the Establishment in the operation of its responsibilities by providing advice and guidance on matters of health and safety.

In addition, there are other officers within LBR who are able to provide advice on health and safety within their specialist areas (e.g. Asbestos, Legionella).

2 Organisation and Responsibilities

Health and Safety within the school is the responsibility of all staff, these responsibilities are outlined in sections 2.1 – 2.13. Key health and safety roles that have been designated to individual staff are outlined in the organisation chart.

Designation	Name
Head Teacher	Miss C. Pampellonne
Deputy Head Teacher	Ms N Debernardis
Health & Safety Co-ordinator	Mrs A. Odunsi
Asbestos Register	Mr I Zeolla
Educational Visits Co-ordinator	Mrs S Kenny
Caretaker	Mr I. Zeolla
SENCO	Mrs P DeGraaf
PE Co ordinator	Mr J Cossey
Office Staff Office First Aid	Mrs W. Crawley/Mrs B Verdant Ms K Berthier

2.1 Governing Bodies of Community, Voluntary Aided & Foundation Schools

Responsibility for health and safety differs between Community Schools, and

Voluntary Aided and Foundation Schools.

For Voluntary Aided Schools, the Governing Body and the Head Teacher are ultimately responsible for ensuring the effective management of health and safety within the school.

Specifically the Governing Body should ensure:

- Health, safety and welfare within the school when the Governing Body is acting as the controller of the premises;
- That it considers the health and safety implications of its decisions;
- Sufficient resources are allocated to ensure that health & safety can be successfully managed;
- That suitable standards of health & safety are achieved and maintained within the school by monitoring the School's health and safety performance on an annual basis.
- That the School's Health & Safety Policy and procedures are annually reviewed to ensure their suitability.

[Click to go back to main index](#)

2.2 Head Teachers of Voluntary-Aided Schools

As outlined in 2.1, the ultimate responsibility for health and safety differs between Voluntary Aided.

Head Teachers are responsible for:

- Producing the School's Health & Safety Policy. This shall include a statement of intent, individual health and safety responsibilities, and the organisation, arrangements and procedures;
- Establishing and maintaining systems within the School to ensure that health & safety is effectively managed;
- Appointing a Health & Safety Co-ordinator for the School.
- Sufficient resources are allocated to enable health and safety to be successfully managed;
- Other health and safety information is communicated to relevant staff;
- Accidents are investigated and reported using the established procedures;
- Safety Representatives can carry out their functions including inspections and accident investigations and, where appropriate, that consultations take place with them. Where Safety Representatives are not appointed by the staff side association, adequate arrangements exist for consultation with all staff on health, safety and welfare issues;
- Safety Representatives inspection report forms are dealt with in an

- appropriate manner;
- Training needs are identified and met;
- Assessments for all risks to health and safety are carried out and the significant findings recorded, with appropriate preventative measures being taken;
- New employees receive appropriate health, safety and welfare information, instructions and training, including details of the Health, Safety and Welfare Policy, fire and other safety procedures;
- Fire precautions and procedures are implemented (including fire drills);
- Liaison is carried out with contractors;
- Appropriate arrangements are made with regard to lettings, where appropriate;
- Health and safety performance is monitored as specified in paragraph 3.24;
- Termly health and safety inspections of the School are carried out.

[Click to go back to main index](#)

2.3 School Health and Safety Co-ordinator

Health and Safety Co-ordinators are responsible for:

- Establishing arrangements for dealing with health and safety matters such as:
 - Dissemination of health and safety information to all staff;
 - First aid;
 - Accident reporting;
 - Emergency evacuation procedures;
 - Ensuring accidents are investigated;
 - Ensuring health and safety matters raised by staff are dealt with;
 - Maintaining a central file of health & safety information relevant to the establishment;
- Liaising with Safety Representatives or other means of consulting with employees;
- Ensuring the implementation of the Safety Policy is monitored;
- Co-ordinating all aspects of Health, Safety and Welfare Policy and practice;
- Ensuring 'reportable' accidents are reported to the Borough.
- Assessments for all risks to health and safety are carried out, the significant findings recorded, and the control measures as detailed in the risk assessment are implemented;
- Health and safety training needs of staff within the School are identified and met, or reported to Head Teacher;
- Keeping up to date with first aid training and ensuring they attend refresher training prior to the expiry of their first aid certificate.
- Staff are aware of the fire procedures;
- New employees receive appropriate health and safety information, instruction

and training, including Departmental safety procedures;

[Click to go back to main index](#)

2.4 Senior Leadership Team

SLT are responsible for implementing the Health, Safety and Welfare Policy within their area of control. In particular they will need to ensure that:

- Appropriate health & safety information is held within the Department/Section;
- The Health & Safety appropriate safety signs or notices are displayed;
- Relevant health and safety information is communicated to staff;
- All accidents occurring in the Department/Section are reported; the causes are investigated and an accident report form is completed;
- Reasonable arrangements for allowing Safety Representatives to carry out their functions are complied with;
- Staff are aware of the fire procedures;
- New employees receive appropriate health and safety information, instruction and training, including Departmental safety procedures;

[Click to go back to main index](#)

2.5 Class Teachers

The health, safety and welfare of students in classroom and other areas of the school is the responsibility of the class teacher. These rules also apply to student teachers who must be made aware of their responsibilities by a professional tutor.

A class teacher is expected to:

- Know the emergency procedures in respect of fire and first-aid and the special health and safety measures to be adopted in his/her own teaching areas and to ensure that they are applied;
- Be aware of, and follow, health and safety guidance;
- Exercise effective supervision of students and ensure that they know of the general emergency procedures in respect of fire and first-aid and the special safety measures of the teaching area;
- Give clear instructions and warnings as often as necessary (**notices, posters, hand-outs are not enough**);
- Ensure that students' coats, bags, cases etc, are safely stowed away;
- Integrate all relevant aspects of health, safety and welfare into the teaching process and if necessary give special lessons on health, safety and welfare;
- Follow safe working procedures personally;

- Ensure protective clothing, guards, special safe working procedures etc. are used when necessary;
- Make recommendations on health, safety and welfare matters to the head of subject or team leader.

[Click to go back to main index](#)

[Click to go back to main index](#)

2.6 Caretaker

The Caretaker is responsible for ensuring the health and safety of the site, in particular the Caretaker is responsible for:

- Ensuring that all fire exits are clear from obstruction and unlocked prior to the building being occupied;
- Undertaking the weekly test of the fire alarm system;
- Be responsible for the Asbestos Record ensuring that contractors read and sign the Asbestos Log.
- Undertaking the monthly test of the emergency lighting system;
- Undertaking the weekly test of the magnetic door release mechanisms;
- Checking the hazard reporting book at least daily, rectifying those issues within their authority and notifying the Headteacher of any unresolved issues;
- Undertaking termly inspections of the communal areas of the school to identify hazards;
- Liaising with lettees to ensure that they are aware of evacuation procedures and routes, hazard and accident reporting procedures.
- Ensuring all hazardous substances are used, handled, transported and stored in accordance with the information outlined in COSHH assessments and other information sources (e.g. CLEAPSS).

[Click to go back to main index](#)

2.7 Asbestos Duty Holders

The Asbestos Duty Holder (Caretaker) must ensure that they have written asbestos management systems in place to provide information to those that could be at risk of exposure to asbestos fibres and avoid such exposure, if possible.

The appointment of contractors or any other persons carrying out works, will require comprehensive control systems in order to comply with the duty to supervise and monitor their activities.

Control and safety management systems must include the following:

- Ensuring that only appropriately accredited and competent contractors work

on site and where work involves working with asbestos, the contractor must be licensed by the Health and Safety Executive;

- Contractors must be given access to any relevant information from the asbestos register and must be advised to assume that materials contain asbestos unless there is evidence to the contrary;
- Ensuring that relevant information is held on site in a secure location and warning notices are displayed on site if relevant;
- Ensuring that the Asbestos Information Poster is displayed at the reception point.
- Making sure that employees on the premises are fully aware that there are asbestos containing materials (ACM's) in the building (if applicable) and where it is located;
- Ensuring no works take place which could disturb asbestos containing materials without first consulting the asbestos register for the premises;
- Ensuring all contractors, and any other person undertaking work on the fabric of the building, sign the asbestos register confirming they had access to the information contained in the register and are carrying out the work in the full knowledge of the possible potential risks;
- Advising the Borough Asbestos Management Team where known asbestos or asbestos containing materials have become damaged or where planned works are programmed.

It is recommended that the duty holder **always** obtain a signature from persons carrying out the work, confirming that they are appropriately trained for the works, which they will undertake. This is essential where works could affect asbestos containing materials.

[Click to go back to main index](#)

2.8 School Business Manager

The School Business Manager is responsible for ensuring the health, safety and welfare of the Office Staff; in particular the SBM is responsible for ensuring that:

- A record is maintained of all premises related maintenance and inspection reports;
- Copies of completed accident forms are maintained. The forms will be retained for 3 years for adults and until the young person is 22 years old.

[Click to go back to main index](#)

2.9 Educational Visits Co-ordinator (EVC)

The EVC is responsible for ensuring that all trips and visits are approved in accordance with the Borough's Policy and that the visit leader completes a suitable

and sufficient risk assessment.

[Click to go back to main index](#)

2.10 Fire Marshals/Wardens

Fire marshals/wardens are responsible for:

- Familiarising themselves with their areas of responsibility, the escape routes and any problem areas;
- On hearing the fire alarm, they are responsible for:
 - Ensuring the safe evacuation of everyone in their area(s) of responsibility
 - Checking all rooms in their area(s) of responsibility; including toilets, rest rooms and store rooms; to ensure that everyone has safely left the building.
 - Where possible, closing windows and doors as each room is checked;
 - Reporting to the Incident Control Officer to inform them that everyone has safely evacuated the building, or to report any problems;
 - Ensuring that nobody re-enters the building until the Incident Control Officer has stated it is safe to do so;
- Ensuring they are available, after the evacuation, to attend a debrief meeting to discuss the evacuation, identify any problems and share information.
- Monitoring to ensure that fire routes and exits are kept clear at all times.

[Click to go back to main index](#)

2.11 First Aiders

First Aiders are responsible for:

- Taking charge when someone is injured or falls ill;
- Administering first aid in the event of an injury;
- Calling for an ambulance, if required;
- Looking after first aid equipment and ensuring it is restocked;
- Keeping up to date with first aid training and ensuring they attend refresher training prior to the expiry of their first aid certificate.

[Click to go back to main index](#)

2.12 All Employees

Although prime responsibility for health and safety rests with the governing body and senior leaders, all employees also have responsibilities. Employees are required

to:

- Take reasonable care for their own health, safety and welfare and that of other persons affected by their acts or omissions;
- Co-operate with their employer, so far as is necessary, to enable it to meet its responsibilities for health, safety and welfare;
- Be aware of, and follow, health and safety guidelines;
- Use work equipment provided correctly, in accordance with instructions and training;
- Inform their line manager of any work situations that represent a serious and immediate danger to health, safety and welfare. The establishment has a formal hazard reporting system, details of which are contained in Section 3.42;

In addition, female workers must notify their employer as soon as possible after they become pregnant in order that a risk assessment can be carried out to ensure the safety of the mother and unborn child.

[Click to go back to main index](#)

3 General Arrangements for Implementing the Health, Safety and Welfare Policy

3.1 Accident/Incident Reporting & Investigation

An accident is an unplanned event that results in injury or damage.

A near miss is an unplanned event that does not result in injury or damage.

All incidents should be reported to the appropriate manager and the form should be completed on Medical tracker.

.

Please note, the report form has a section 'action taken to prevent a recurrence'. All accidents are required to be investigated, and this section should be completed to reflect any action taken. Where no further action is required this should be entered into the form to demonstrate that management have considered this.

Where appropriate, accidents may also be investigated by the Health and Safety staff, LBR Insurance or the Health and Safety Executive.

Incidents which fall within the requirements of the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) e.g. specified injuries, accidents resulting in employees being absent from work for more than 7 days, or members of the public going to hospital from the scene of the accident etc should be reported to the Health and Safety Executive directly and the Health and Safety function by email.

Further information on accident reporting and investigation can be obtained from the following websites:

<http://www.hse.gov.uk/toolbox/managing/accidents.htm> or by emailing the Health & Safety function on H&Saccidentreporting@redbridge.gov.uk.

[Click to go back to main index](#)

3.2 Asbestos

The Control of Asbestos Regulations places a duty on the "Asbestos Duty Holder" to manage any asbestos or asbestos containing materials located within the premises.

The Asbestos Duty Holder is generally the person who has (or persons who have) clear responsibility for the maintenance or repair of the premises e.g. Head Teacher and site manager.

The Asbestos Duty Holder(s) is Mr I Zeolla.
Overseeing the register is completed is the responsibility of the Health and Safety Co ordinator and Headteacher.

Each establishment has an Asbestos Register that identifies whether asbestos or asbestos containing materials are present within the premises, the location, the type of asbestos and its condition.

The Asbestos Register is located in the school office.

It is the responsibility of the Asbestos Duty Holder to ensure that **anyone**, contractors or staff, who intend to work on the fabric of the building, read the Asbestos Information poster and consult the Asbestos Register prior to commencing work in order to ensure where they will be working is free from asbestos and asbestos containing materials, and that they sign the register to demonstrate they have consulted and understood it.

If, during the course of the task, further work needs to be carried out at a different location, the Asbestos Register must be consulted again and be resigned and dated.

Please note that the Asbestos Register was compiled following a management asbestos survey. Any intrusive work will require a Demolition/Refurbishment asbestos survey to be carried out prior to the work commencing.

Any queries regarding asbestos in the premises, or how to arrange for a Refurbishment & Demolition survey, should be referred to the Asbestos Duty Holder, who will consult with the Council's Asbestos Team.

Asbestos Awareness refresher training is required to be carried out on an annual basis.

[Click to go back to main index](#)

3.3 Communicable Diseases

Due to the age and number of children present in educational establishments it is not uncommon for them to contract a variety of communicable diseases.

Public Health England have produced 'Guidance on Infection Control in schools and other childcare settings'.

This document provides guidance on the prevention and spread of communicable diseases, and promotes a co-ordinated approach to the management of communicable disease in schools, colleges and nurseries.

The exclusion periods for common infectious diseases and skin infections are also included in this document.

A copy of the exclusion period chart & Guidance is located in the school office & in the Medical Room.

[Click to go back to main index](#)

3.4 Consultation with Employees

Under the Health and Safety (Consultation with Employees) Regulations and the Safety Representatives and Safety Committees Regulations an employer has a duty to consult with employees on matters of health and safety.

Employees will be consulted on the following:

- The introduction of any measure which may substantially affect their health and safety at work;
- Arrangements for getting competent people to help them comply with health and safety laws;
- Information on risks arising from their work, measures to reduce or get rid of those risks and what employees should do if they are exposed to a risk;
- The planning and organisation of health and safety training and the health and safety consequences of introducing new technology;

St Antony's Catholic Primary School will consult with staff in the following ways
Through the SLT 1xweekly meeting with H&S on the agenda
Through H&S being on the agenda of staff briefing for any points to be brought to the attention of staff- Through H&S induction for all new staff
Through H&S noticeboard in the staff room
By email communications to all staff

[Click to go back to main index](#)

3.5 Control of Contractors

This Establishment recognises its' responsibilities in relation to the use of contractors.

In any client/contractor relationship, both parties will have duties under health and safety law. Similarly, if the contractor employs sub-contractors, to carry out some or all of the work, all parties will have some health and safety responsibilities.

(The client in these circumstances is the head teacher/school, or where schools have bought into SMADS, the local authority)

Clients need to satisfy themselves that contractors are competent (i.e. they have sufficient skills and knowledge) to do the job safely and without risks to health and safety. The degree of competence required will depend on the work to be done.

The client and contractor are required to agree the risk assessment for the contracted work and the preventative and protective steps that will apply when work is in progress. Consideration should be given to those risks from each other's work that could affect the health and safety of the workforce or anyone else.

Clients are required to manage and supervise the work of the contractors. The more impact the contractor's work could have on the health and safety of anyone likely to be affected, the greater the management and supervisory responsibilities of the client. Clients therefore need sufficient knowledge and expertise to manage and

supervise the contracted work.

The Establishment will ensure that contractors visiting their premises do not pose a risk to their own health and safety or that of others present within the establishment.

The Site Managers/Caretaker is responsible for ensuring that all contractors on site are aware of the asbestos log, fire and emergency evacuation procedures.

The Site Managers/Caretaker should inform all contractors of any known hazards that might affect them whilst at work. Contractors in turn should notify the Head of Establishment of any hazards arising from their activities, which may affect the occupants of the establishment.

The Catering staff are responsible for the safety of the kitchen & cleaning areas and must notify the Head teacher of any hazards.

All contractors should report to the establishment office on arrival.

Further information is available from the HSE document "Use of Contractors - a joint responsibility", HSE INDG 368

[Click to go back to main index](#)

3.6 Control of Substances Hazardous to Health

The Control of Substances Hazardous to Health (COSHH) Regulations impose duties on employers to protect employees who may be exposed to substances hazardous to health at work, and others who may be affected by such work.

COSHH covers chemicals, products containing chemicals, fumes, dusts, vapours, mists, gases, and biological agents (bacteria, fungi and viruses). If there is a hazard symbol displayed on the packaging then the contents are classed as a hazardous substance. COSHH also covers asphyxiating gases, biological agents that cause diseases such as Leptospirosis or Legionnaires Disease; and biological agents used in laboratories.

COSHH does not cover lead, asbestos or radioactive substances because they have their own specific regulations.

Schools are required to control hazardous substances, which can take many forms, including:

Chemicals

Products containing chemicals

Fumes

Dusts

Vapours

Mists

Gases and asphyxiating gases

Germes that cause diseases, such as leptospirosis or legionnaires disease

Control of substances hazardous to health (COSHH) risk assessments are completed by Mr I. Zeolla/Caretaker and circulated to all employees who work with hazardous substances. Staff will also be provided with protective equipment, where necessary.

Our staff use and store hazardous products in accordance with instructions on the product label. All hazardous products are kept in their original containers, with clear labelling and product information.

These products will be stored in the care takers office which is locked and not accessible to pupils.

Any hazardous products are disposed of in accordance with specific disposal procedures.

Emergency procedures, including procedures for dealing with spillages, are displayed near where hazardous products are stored and in areas where they are routinely used.

The COSHH Do's and Don'ts Poster is displayed in the storage area for cleaning and hazardous substances. This is located in the caretakers office

[Click to go back to main index](#)

3.7 Display Screen Equipment

The Display Screen Equipment (DSE) Regulations require employers to minimise the risks to employees who habitually use display screen equipment as a significant part of their normal work.

Other people, who use DSE only occasionally, are not covered by the requirements of the regulations, however, employers still have general duties under other health and safety at work legislation.

'Users', as defined by the Regulations, can be identified by completing the DSE User questionnaire.

Where users are identified, the following must be ensured:

- Workstations are assessed using the HSE workstation assessment checklist and the risks reduced, as applicable;
- Workstations meet the minimum requirements as outlined on the HSE checklist;
- Work is planned to allow adequate breaks or changes of activity;
- On request, eye tests are arranged, and a contribution made towards spectacles if they are required for DSE use; and
- Health and safety training and information is provided.

Completed User forms and DSE assessment checklists are located in DSE folder in the SBM's office.

When a DSE User requests an eye test, a completed copy of the Eye and Eyesight Test form should be completed and taken along to the appointment.

Further information can be found on the HSE website: www.hse.gov.uk/msd/dse

[Click to go back to main index](#)

3.8 Electricity at Work

The Electricity at Work Regulations set out specific requirements on electrical safety. These regulations place a duty on employers to ensure that electrical systems are designed, constructed, used and maintained so as to prevent danger. 'Systems' includes all apparatus as well as the mains supply.

All portable electrical appliances should be visually checked before use. In particular, attention should be paid to the condition of power cables and of their terminations, as these are often damaged, wrenched and jerked, which may loosen their connections.

All portable electrical equipment should be visually inspected before use, equipment used and moved regularly such as kettles, extension leads, microwave ovens etc should be subject to a detailed inspection and test by a competent person periodically. A written record of the tests, in the form of a logbook or register, should be maintained and be available for examination and the equipment itself should be marked with some form of identification and the date of the most recent test.

Annual Portable Appliance Testing will be carried out by annually and the records are maintained by Mrs A. Odunsi. The latest testing was carried out in July 2024 and is held as both a hard copy and a word document within the Health and Safety Folder on the School Administration Hard Drive System.

Fixed electrical installations should be inspected by a competent person at least every five years.

Mains Electrical Testing was carried out in August 2021 and the records are maintained by Mr I Zeolla & Mrs A Odunsi.

Staff and pupils may not bring their own personal electrical appliances into the Establishment/ unless they have had their earth-bond and insulation checked by a competent person.

[Click to go back to main index](#)

3.9 Educational Visits

The Health and Safety at Work Act places a duty on employers to ensure the health, safety and welfare of employees and others (pupils) who may be affected by the work activities. This includes all educational visits, whether local, national or international.

In order to safely manage educational visits *the* Establishment follows the guidance provided in the LBR Children's Services document "Requirements for Educational Visits" using the online educational visits software package "Evolve" as applicable.

In accordance with this guidance this Establishment has appointed an Educational Visits Co-ordinator, and developed a school Educational Visits Policy based on the DFE and Children's Services Guidance.

The Educational Visits Co-ordinators (EVC) is Mrs S Kenny

The school Educational Visits Policy is located on the Schools Policy Website and in the Policies & Procedure Folder located in the shared drive.

No educational visit will be allowed to proceed unless an educational visits risk assessment has been completed and the visit has the approval of the Head Teacher and (for adventurous activities, residential visits and international visits) the local authority.

[Click to go back to main index](#)

3.10 Fire Safety

The Regulatory Reform (Fire Safety) Order places duty on employers to conduct a fire risk assessment and take reasonable steps to reduce the risk from fire.

Each establishment should have a "Responsible Person" who is ultimately responsible for fire safety and who may have other competent people to assist them to carry out their duties. These include undertaking a Fire Risk Assessment, Emergency Evacuation Plan, and Personal Emergency Evacuation Plans (PEEPs) for staff or pupils with impaired mobility.

The Responsible Person for St Antony's Catholic Primary School is Mrs A. Odunsi.

The competent people for fire safety are:

- Calling the Fire Brigade is the responsibility of Mrs Crawley/Office staff
- Liaising with the fire brigade is the responsibility of the Headteacher/SLT
- Collecting class registers, staff book and visitors book is the responsibility of Mrs B Verdant/Mrs W. Crawley
- Organising fire drills is the responsibility of Miss C Pampellonne/ Mrs A. Odunsi
- Organising fire safety training is the responsibility of Mrs A Odunsi
- Quarterly inspections of the fire alarm, emergency lighting, fire door magnetic holders are carried out by Hall & Kay
- Weekly checks of the fire alarm call points, emergency lighting and fire door magnetic holders are carried out by Mr I Zeolla
- Annual inspection of the fire extinguisher and firefighting equipment is carried out by Hall & Kay

It is the responsibility of Mrs A. Odunsi to ensure that the fire risk assessment, Emergency Evacuation Plan are undertaken and reviewed as necessary, and keeping the contents of the fire safety folder up to date.

It is the responsibility of the SENCO & SBM to ensure that any PEEPS for staff or pupils is completed and reviewed annually. These should be located in the SBM's Office

Blue Dot 'Fire instruction notices' are displayed throughout the premises advising the actions to be taken on discovering a fire/on hearing the alarm.

Ms K Berthier is responsible for ensuring the "Blue Dot Fire Instruction" notices are appropriately display.

[Fire Instruction Notice PS 1234](#) is displayed near all fire alarm call points.

[Fire Instruction Notice PS 0699](#) is displayed in all communal areas and offices.

Fire Drills are conducted on a termly basis and a record of the time taken to evacuate the premises and any comments are reported to the Governing Body.

All staff have a duty to be aware of the fire and emergency procedures, to ensure that all escape routes and fire exits are kept clear, and to report any defective or damaged fire fighting equipment, such as fire extinguishers.

Any fire that occurs within the premises, however minor, must be reported to the Head Teacher and to the Health & Safety function using the LBR incident reporting system.

[Click to go back to main index](#)

3.11 First Aid

The Health and Safety (First-Aid) Regulations set out a duty of care on employers to provide adequate and appropriate first aid provision for employees.

The Health and Safety (First-Aid) Regulations do not oblige employers to provide first aid for members of the public. However, LBR Service areas that provide a service for others, including schools, should include the public, pupils and others on their premises when making their assessment of first aid needs.

It is usually necessary to ensure that there is at least one first aider available at all times, taking into consideration staff absence, holidays, lunch breaks, before and after hours, etc

The First Aid Boxes for St Antony's Catholic Primary School are sited in the following locations:

In the Medical room

Staff nominated to administer first aid will attend one of the following courses: first aid at work, emergency first aid, and paediatric first aid.

The person responsible for maintaining the First Aid boxes is: Ms K Berthier & Middays

Notices are displayed throughout the premises advising of the locations of first aid boxes and the names of first aiders.

Any accidents requiring first aid must be recorded and where relevant reported to the health and safety manager using the accident reporting procedure.

Further information can be found here regarding first aid in schools:

<https://www.gov.uk/government/publications/first-aid-in-schools>

The nominated persons with first aid responsibilities for this Establishment are:

Staff	Position	Emergency First Aid	Paediatric First Aid	First Aid At Work	L2 Emergency First Aid at Work
Sabrina Prince	NNEB		X		
Sharon Parker	LSA		X		
Danielle Hurd	LSA		X		

Gemma Jacobs	LSA		X

Marzana Uddin	LSA		X		

3.12 Gas Safety

Under the Gas Safety (Installation and Use) Regulations and the Gas Safety Regulations, any work on gas systems and appliances could only be carried out by persons registered with the Gas Safe register.

Work on gas systems and appliances can only be undertaken by persons who are Gas Safe Registered.

Mr I. Zeolla is responsible for ensuring that gas appliances will be regularly serviced by competent persons.

Annual servicing will be carried out by Oakray and records are maintained by Mr. I Zeolla and held electronically in the Premises Folder in the caretakers office.

If you smell gas:

- Do not use any naked flames/other ignition sources
- Open doors and windows
- Contact the gas board
- Do not switch on or off the lights or any portable switch appliance switch
- Shut off the gas
- Evacuate the premises, if appropriate

[Click to go back to main index](#)

3.13 Health & Wellbeing (Including Employee Assistance Programme)

The Health and Safety at Work Act establishes a duty for employers to ensure the health, safety and welfare of employees, whilst at work. This includes not only their physical health, but also their mental health and wellbeing. The Management of Health and Safety at Work Regulations require a general risk assessment of all risks in the workplace, and this will include the risk to staff from stress.

The HSE defines stress as *“the adverse effect people have to excessive pressure or other types of demand placed on them”*.

St Antony’s Catholic Primary School recognises that stress per se is not an illness, but can result in stress related illness such as anxiety or depression. Accordingly a risk assessment has been undertaken to identify the main potential stressors and the control measures required in order to reduce the risks to staff.

The school staff insurance with SAS(Schools Advisory Service) provides confidential help and support for staff to access.

The Establishment refers employees to CHARMS for \pre-employment checks & Occupational Health services

[Click to go back to main index](#)

3.14 Information, Instruction and Training

The Health & Safety at Work Act establishes the duty of the employer to supply employees with such information, instruction, training and supervision as necessary to ensure their health and safety at work.

This establishment is committed to providing all staff with the appropriate information, instruction, training and supervision to enable them to undertake their duties safely and without risk to themselves or others.

Induction training will be provided to all new employees appropriate to their role.

Health and safety training, and refresher training will be organised for staff as appropriate, and training records (including induction) will be kept.

Health and safety training records are logged on Highspeed training portal and Sims

[Click to go back to main index](#)

3.15 Legionella

The Control of Substances Hazardous to Health Regulations relates to the risk from hazardous microorganisms, including Legionella. Under these Regulations, risk assessments and the adoption of appropriate control measures are required to be put in place.

The school will ensure that an adequate risk assessment of the water systems in its buildings is carried out; and will identify and assess the risk of exposure to Legionella bacteria from work activities and water systems on the premises and any necessary precautionary measures.

As part of the SMADS contract, the risk assessment will be undertaken by HSL

All water systems are subject to monitoring, inspection and testing at regular intervals by a competent person. The written records of the risk assessments, monitoring, inspection and test, in the form of logbook or register, should be maintained and should be retained for at least 5 years.

Regular monitoring, inspection and testing will be carried out by HSL
Maintenance Records are located in the folder in caretakers office and electronically in the Premises folder

Any queries regarding Legionella risk management should be referred to the appropriate manager, who will consult with SMADS.

[Click to go back to main index](#)

3.16 Letting of the School Premises

Employers have a general duty under the Health and Safety at Work Act to ensure the health, safety and welfare of their employees at work, and others who are not employees but use their premises.

The Act also requires that when parts of the building are used by other organisations that there is "co-operation and co-ordination" between the two parties for the purposes of health and safety.

This Establishment will ensure that the appropriate health and safety information is passed to the hirer, using the Letting of Educational Premises Checklist.

Where the hirer is undertaking activities that require personal qualification or

proficiency

(for example martial arts), the school will check to ensure competence of the instructor prior to the letting being agreed.

Lettings are organised by Mrs A Odunsi.

Letting documents are located with the SBM for any hire requirements

[Click to go back to main index](#)

3.17 Lone Working

The Health and Safety at Work Act places a duty on employers to ensure the health, safety and welfare of employees. The Management of Health and Safety at Work Regulations require employers to make a suitable and sufficient assessment of the risks to health and safety of employees to which they are exposed whilst at work. This will include the risks to staff from lone working.

Lone workers have been defined by the HSE as ‘those who work by themselves without close or direct supervision’. Lone workers are found in a wide range of situations, and can be divided into those who work at fixed establishments (where only one person is on site, where people work separately from others, or where people are working out of normal working hours), and those who are mobile workers, working away from their main working base.

This Establishment will ensure that all lone working activities are identified, and the risks from such lone working activities are assessed and control measures identified and implemented to minimize the risk to the health and safety of staff.

It is the responsibility of Ms C Pampellonne to identify all lone working activities within the school and ensure that a suitable risk assessment is undertaken for

The responsibility for undertaking lone working risk assessments and ensuring the outcomes are communicated to the lone workers lies with Mrs A. Odunsi

All staff that work alone must be competent to carry out the activities they are engaged in, must have received sufficient information to enable them work alone safely and to be able to summon help and assistance if required.

It is the responsibility of Mrs A. Odunsi to ensure lone workers have received adequate lone working information and training, and for keeping training/briefing

It is the responsibility of all staff to follow the defined lone working procedures and safe systems of work, and to report immediately any problems or concerns to their line manager.

Further guidance is available in the HSE document Working alone (INDG73).

[Click to go back to main index](#)

3.18 Manual Handling

The Manual Handling Operations Regulations apply to a wide range of manual handling activities, including lifting, lowering, pushing, pulling or carrying. These regulations place specific duties on employers and employees.

It is up to individuals to determine whether they are fit to lift or move equipment and furniture. If an individual feels that to lift an item could result in injury or exacerbate an existing condition, they will ask for assistance.

The school will ensure that proper mechanical aids and lifting equipment are available in school, and that staff are trained in how to use them safely.

Staff and pupils are expected to use the following basic manual handling procedure:

Plan the lift and assess the load. If it is awkward or heavy, use a mechanical aid, such as a trolley, or ask another person to help

Take the more direct route that is clear from obstruction and is as flat as possible
Ensure the area where you plan to offload the load is clear

When lifting, bend your knees and keep your back straight, feet apart and angled out. Ensure the load is held close to the body and firmly. Lift smoothly and slowly and avoid twisting, stretching and reaching where practicable

Employees are required to:

- Follow appropriate systems of work laid down for their safety;
- Make proper use of equipment provided for their safety;
- Co-operate with their employer on health and safety matters;
- Inform the employer if they identify hazardous handling activities;
- Take care to ensure that their activities do not put others at risk.

All staff members involved in manual handling will be given suitable and sufficient information, instruction, training and supervision. Training will be recorded, monitored and reviewed.

Training records will be maintained by Ms Berthier and held in the Training Records (Sims)

If a member of staff develops any medical/physical condition, the responsible person should be made aware immediately. A specific risk assessment must be carried out to cover the activities/tasks and control measures should be taken accordingly.

Further advice can be found on the HSE website www.hse.gov.uk

INDG 143- Getting to grips with Manual Handling

[Click to go back to main index](#)

3.19 Medicines

In general, medicines must not be brought into school. However if a pupil has a medical condition that requires regular medication during the school day or medicine in the event of an emergency, then arrangements for administration must be made between the Establishment and the pupil's parent/guardian. These arrangements must be in the form of an agreed Care Plan.

A list of pupils with medical conditions and their care plans can be found in SENCO's Office, Medical tracker and in the School Office.
Prescribed medicines are stored in storage fridge/cupboard in the Medical Room.

Protocols for pupils with serious medical conditions should be displayed in the prominent locations around the Establishment, e.g. staffroom, medical room and relevant classrooms. The protocols and care plans should be clearly marked with the pupil's name and an up to date photograph.

Registers should be clearly marked to alert supply teachers of any pupils with medical needs.

All staff involved in the administering of medicines should be appropriately trained, e.g. epi-pen training.

Appropriate records in relation to the administration of medicines should be maintained at all times. A Medication Administration Permission Form must be completed and signed by the parent or guardian, and a Medication Administration Record Sheet completed each time medicines are administered.

More detailed information can be found in the Department for Education document 'Managing Medicines in Schools and Early Years Settings'.

[Click to go back to main index](#)

3.20 Monitoring – Audits & Inspections

In order to ensure health and safety arrangements are working and that risk control measures are effective and are being maintained, it is necessary to monitor health and safety performance. Monitoring also ensures that lessons are learnt from any incidents, accidents or causes of ill health.

This Establishment will carry out the following monitoring:

- Daily checks by the Caretaker in addition to detailed termly inspections of the school (these could be in conjunction with inspections by establishment safety representatives). A written record of identified items must be kept;
- Routine equipment maintenance checks either carried out by staff of the establishment or by external contractors, as appropriate, including access equipment, fire extinguishers, fume and dust extraction systems, portable electrical appliances, PE equipment including climbing frames etc;
- Investigations of incidents, accidents, causes of ill health and complaints as appropriate to the circumstances;
- Reviewing accident statistics by governing body to identify causes of accidents; and
- Reviewing audit reports detailing the performance of the School's health & safety management system.

This Establishment will also carry out a formal inspection at least twice a year using an inspection checklist, The H&S function will require copies to be sent and may undertake themed inspections of the school.

Records of maintenance checks, inspections etc are located in: the SBM's office within the premises folder. A safety Audit will be carried out every two years by Safety Mark. The Asbestos Register is located in the School office for visitors and is the responsibility of Mr I. Zeolla.

[Click to go back to main index](#)

3.21 New & Expectant Mothers

The Management of Health & Safety at Work Regulations place a duty on employers

to undertake a suitable and sufficient assessment of the risks to the health and safety of their employees, to which they are exposed whilst at work in order to identify the measures that need to be taken to comply with health and safety legislation.

In addition, the Regulations identify two groups of workers; new and expectant mothers and young persons; for whom a specific risk assessment must be undertaken, or an existing risk assessment must be reviewed in order to identify any additional control measures that may need to be taken.

A “new or expectant mother” is taken to mean an employee who is pregnant; who has given birth within the previous six months; or who is breast-feeding.

When a member of staff notifies the Establishment in writing that she is any of the above, then a specific risk assessment must be carried out to cover the activities and tasks that person undertakes and any specific hazards that may be involved during the course of her work.

The main areas of concern for new and expectant mothers fall into three main categories of physical, biological and chemical.

Further advice can be found in the following documents available on the HSE website www.hse.gov.uk:

HSG 122 – New and Expectant Mothers at Work – An Employers Guide

INDG 373 – A Guide for New and Expectant Mothers who Work

[Click to go back to main index](#)

3.22 Noise at Work

The Control of Noise at Work Regulations are in place to ensure that worker’s hearing is protected from excessive noise at their place of work, which could cause them to lose their hearing and/or suffer from tinnitus.

It is the responsibility of the employer to assess and identify measures to eliminate or reduce risks from exposure to noise. Where the risks are low, the actions taken may be simple and inexpensive, but where the risks are high, they should be managed using a prioritised noise-control action plan.

As a general rule in this Establishment noise will be considered to be a hazard if:

- Staff have to raise their voices to carry out a normal conversation when about 2 m apart for at least part of the day
- Staff use noisy powered tools or machinery for more than half an hour each

- day
- Staff are exposed to high levels of noise for a significant part of their working day.

Where noise is perceived to be a risk to staff the Establishment will:

- Assess the risks to employees from noise at work;
- Take action to reduce the noise exposure that produces those risks;
- Provide employees with hearing protection if the noise exposure cannot be reduced enough by other methods;
- Make sure the legal limits on noise exposure are not exceeded;
- Provide employees with information, instruction, training and health surveillance

Some staff will be given particular consideration when making a noise risk assessment, for example people with a pre-existing hearing condition, those with a family history of deafness (if known), pregnant women, children and young people.

Further information and advice about noise at work can be found on the HSE website <http://www.hse.gov.uk/noise>

[Click to go back to main index](#)

3.23 Personal Protective Equipment

The Personal Protective Equipment Regulations are designed to protect people from risks to their health.

The Personal Protective Equipment should be properly assessed before use to ensure it is suitable; be maintained and stored properly. Employees should be provided with instructions and training on how to use it safely and supervised to ensure the equipment is being used correctly.

PPE is defined in the Regulations as “all equipment (including clothing protection against the weather) which is intended to be worn or held by a person at work and which protects them against one or more risks to his health or safety”, e.g. safety helmets, gloves, eye protection, high-visibility clothing, safety footwear and safety harnesses.

All Personal Protective Equipment should be identified through risk assessment, but only if the control measures cannot be reduced by other means.

[Click to go back to main index](#)

3.24 Playground / Play Equipment

The Health and Safety at Work Act requires employers to ensure, not only the health, safety and welfare of employees, but also others who may be affected (i.e. pupils).

The Provision of Work Equipment Regulations requires all work equipment to be suitable for purpose, maintained in a safe working order, and regularly inspected to ensure it remains so. Although playground equipment would not strictly be regarded as work equipment, this school recognises that it has a duty of care to all pupils and this includes ensuring the equipment provided for their use is suitable, maintained in a safe working order, and regularly inspected to ensure it remains so.

Accordingly, the playground and all playground equipment is visually checked on a weekly basis and an annual inspection is also undertaken by Rospa. These checks will be recorded and signed by the person responsible for undertaking them.

The responsible person for maintaining the playground and playground equipment is Mr I Zeolla.

Records of playground and playground inspections are located in H&S Walks / Inspections folder in the SBM's Office.

[Click to go back to main index](#)

3.25 Risk Assessment

The Management of Health and Safety at Work Regulations require employers to make a suitable and sufficient assessment of the risks to health and safety of employees to which they are exposed whilst at work, and any others who may be affected by their undertaking.

The risk assessment must be recorded, and reviewed if it is no longer valid, if there have been significant changes in the matters to which it relates, or annually, whichever is the sooner.

The Headteacher will be responsible for ensuring that risk assessments are undertaken, recorded and reviewed within the establishment.

The responsibility for carrying out risk assessments lies with the following staff
Ms C. Pampellonne - Headteacher
Mrs A. Odunsi – School Business Manager /H&S Co-ordinator
Ms N Debernardis – DHT
Mrs S Kenny –EVC Coordinator
Mr R. Nelson/Mr J Cossey – PE Co ordinator
Mrs S Hale-Brown– Art Co ordinator
Mrs Jessie L– Science Co ordinator
Mrs P. DeGraff – SENCO

Copies of current risk assessments are located electronically
In the shared drive-“Risk Assessment”

Employees' have a duty to cooperate with their employer when they are conducting risk assessments and for cooperating with them in implementing any remedial action or control measures to reduce the risk.

Staff involvement and consultation will be ensured during the risk assessment process.

Note: the Regulations stipulate that a specific risk assessment must be undertaken for New and Expectant Mothers, Young Persons (under 18 years of age). Statutory risk assessments are also required for COSHH, DSE, Personal Protective Equipment & Manual Handling.

[Click to go back to main index](#)

3.26 Safety, Signs and Signals

The Health and Safety (Safety Signs and Signals) Regulations places duty on employers to use and maintain appropriate health and safety signs, in order to make persons aware of risks, where the risk to health and safety cannot be avoided or adequately controlled by other means.

This Establishment will ensure that where the requirement for the posting of a safety sign has been identified, such signs are posted at suitable locations, conform to the relevant standards and are adequately maintained.

It is the responsibility of Mrs A. Odunsi (H&S Co-ordinator)/Mr I Zeolla (caretaker) to ensure that health and safety signs are displayed and adequately

Staff will be provided with appropriate instruction, information and training in the use and understanding of safety signs, as applicable.

Staff should report missing or damaged safety signs to the
Caretaker/ Health & Safety Co-ordinator/HT

Further information on safety signs and signals can be found on HSE website www.hse.gov.uk:

HSE leaflet INDG184 "Signpost to The Health and Safety (Safety Signs and Signals) Regulations - Why do we need these Regulations?"

HSE leaflet INDG 352 "Read the Label – How to find out if chemicals are dangerous"

[Click to go back to main index](#)

3.27 Security

Specific responsibility for school security is not set down in legislation. However, school security is related to health and safety, therefore whoever has responsibility for health and safety should consider what security measures are necessary to ensure, as far as reasonably practicable, the safety of the staff and pupils.

The health and safety co-ordinator within the school may assume the responsibilities for school security. Alternatively schools may wish to appoint a school security co-ordinator who will develop a knowledge and understanding of security issues within the premises.

Mrs A Odunsi (SBM) has responsibility for school security issues.

The two principal aspects of security in an education setting are the security of school premises both during school hours and out of school hours and secondly the personal safety of staff and pupils.

There are a number of methods for enhancing security. Knowledge of previous incidents and seeking advice from relevant internal and external agencies will be considered when determining the most appropriate security measures.

Examples of security measures:

- Controlled entry system at gates and main entrance.
- Fencing around perimeter
- Intruder alarm system
- Visitors signing book and badge system
- Procedures for dealing with trespassers
- Appropriate recording procedures for incidents relating to security

Internal/ External Agencies:

- LBR – health and safety advisors, property services etc
- Police – in particular, Crime Prevention and School Officers
- Fire and Rescue Services – in particular, Fire Safety Officers
- www.teachernet.gov.uk/wholeschool/healthandsafety/schoolsecurity

[Click to go back to main index](#)

3.28 Smoking

The Smokefree Regulations were introduced in England to make virtually all enclosed public places and workplaces in England smoke free.

As a result this establishment is a strictly no smoking establishment.

Further information can be found on the Smokefree England website and in the LBR Smoking Policy.

[Click to go back to main index](#)

3.29 Slips and Trips

The Health & Safety at Work Act requires employers to ensure the health, safety and welfare of employees and others who may be affected. The Act also requires the provision of a place of work that is maintained in a safe condition, and a means of access and egress that is safe and without risk.

This establishment recognises that good housekeeping is essential to preventing slip and trip accidents. Accordingly the following measures will be taken to ensure good housekeeping:

Formal recorded workplace inspections will be undertaken by Mr T. Hobbs & Mr B. Bergh (H&S/Premises Governor) Annually

All staff are responsible for undertaking informal daily checks of their own work areas.

Where action is identified during workplace inspections but cannot be implemented immediately, interim measures will be taken and an action plan produced to outline when the action will be implemented, who will be responsible for ensuring it is implemented and the estimated completion date.

Copies of the action plan and formal workplace inspection records will be kept by Mrs A Odunsi

[Click to go back to main index](#)

3.30 Traffic Management

The Workplace (Health, Safety and Welfare) Regulations require that workplaces are organised to ensure that vehicles and pedestrians can move around safely. This includes organisation of traffic routes to enable pedestrians and vehicles to circulate safely.

A risk assessment of traffic management within the school grounds and immediate vicinity should be carried out.

The following key issues were considered when carrying out the traffic management risk assessment:

- By law, pedestrians or vehicles must be able to use a traffic route without causing danger to the health or safety of people working near it;
- Roadways and footpaths should be separate whenever possible;
- Protection for people who work near vehicle routes;
- By law, traffic routes must also keep vehicle routes far enough away from doors or gates that pedestrians use, or from pedestrian routes that lead on to them, so the safety of pedestrians is not threatened;
- As far as possible, parked vehicles are kept out of the flow of traffic and people;
- Drivers are notified of designated parking areas on entering the site;
- Parking areas are demarcated, which reduces manoeuvring and reversing for large vehicles;
- As far as possible, avoid reversing. When this is unavoidable make sure effective systems are in place to control it;
- As far as possible schedule vehicle movements to prevent overcrowding, of site and surrounding roads;
- By law, traffic routes must also be suitably indicated where necessary for reasons of health or safety;
- Install clear signs to tell drivers and pedestrians about the routes they should use;
- Where signposts are used, they should be constructed to Highway Code Standards; and
- Make sure the signs are kept clean and visible.

Further information on workplace transport is available from www.hse.gov.uk/workplacetransport/

[Click to go back to main index](#)

3.31 Violence/Personal Safety of Staff

The Health and Safety at Work Act places a legal duty on employers to ensure the health, safety and welfare of employees at work.

The Management of Health and Safety at Work Regulations places duty on employer to consider and assess the risks to employees. This would include the risk of reasonably foreseeable violence.

Violence may be defined as any incident in which a person is abused, threatened or assaulted, either physically or verbally, in circumstances relating to their work.

Physical or verbal abuse of staff within this school will not be tolerated and the School fully endorses the LBR Personal Safety of Staff Policy and procedures. Consequently a risk assessment will be undertaken to identify and minimise the risk to staff from potentially violent persons or situations.

Staff will, where appropriate, receive information, instruction and training on the risks from potential violence and aggression, and how to avoid or minimise potential violent or aggressive situations.

It is the responsibility of Ms C. Pampellonne to ensure that staff are provided with appropriate information, instruction and training.

All acts of physical or verbal abuse must be reported using the appropriate report procedures. See the relevant section of this policy for further information.

As an employer the school will support any employee who is assaulted or threatened in the course of their duties.

In addition, there is an Employee Assistance Programme available to all staff, which offers a 24-hour confidential helpline.

[Click to go back to main index](#)

3.32 Waste including Waste Electrical & Electronic Equipment (WEEE) Regulations

All waste generated by this Establishment will be disposed of responsibly.

General waste will be disposed of in the wheelie bins provided by the Borough.

Any hazardous waste will be disposed of in accordance with the Hazardous Waste Regulations. This may be via LBR facilities or through a specialist licensed contractor.

Any waste being stored on site must be stored in such a way so as not to pose a risk to staff or pupils.

Waste is considered 'hazardous' under environmental legislation when it contains substances or has properties that might make it harmful to human health or the environment. Examples of hazardous waste include, fluorescent tubes, car batteries, insulating oils.

Any electrical or electronic waste must be disposed of in accordance with the Waste Electrical and Electronic Equipment (WEEE) Regulations.

Any third party taking either hazardous waste or WEEE must be a registered waste carrier. The waste must be accompanied by a waste transfer note or hazardous waste consignment note (as appropriate) and taken to a suitable facility.

A record of all waste documentation (transfer notes, copies of licences) must be kept by the Establishment.

Waste disposal from the Establishment will be organised by Mr I. Zeolla/Mrs W Crawley

Members of staff must not take waste in their own private vehicles or in any LBR vehicle unless they are a registered waste carrier (i.e. it is no longer possible to take waste directly to a municipal refuse site).

[Click to go back to main index](#)

3.33 Work Equipment

The Provision and Use of Work Equipment Regulations (PUWER) apply to all types of work equipment. The Regulations generally apply to any equipment that is used by an employee at work, for example hammers, knives, ladders, drilling machines, circular saws, photocopiers, lifting equipment (including lifts) and motor vehicles.

In general terms the Regulations require that equipment provided for use at work be:

- Suitable for the intended use;
- Safe for use;

- Maintained in a safe condition;
- Inspected;
- Used only by people who have received adequate information instruction and training; and
- Accompanied by suitable safety measures, e.g. guards, markings, warnings

In addition to PUWER, the Management of Health and Safety at Work Regulations require employers to carry out suitable and sufficient risk assessment of the risks to which employees are exposed to at work including work equipment.

The Establishment will ensure that risk assessments are in place for specific pieces of equipment and effective measures taken to control the hazards associated with the use of equipment.

This Establishment requires all employees and students who use equipment to undertake pre-use inspections to identify any obvious defects (e.g. damaged casings, exposed wiring, etc.). All defects to work equipment must be reported and the equipment taken out of use until the defect is rectified.

Defects should be reported to Mrs A.Odunsi/Mrs W Crawley/Mr I Zeolla

All the equipment provided must only be used for its intended purpose.

Staff must not use work equipment unless they have received appropriate training and must use the equipment in an appropriate manner, according to the information received in training and instructions from their line manager. Students using the work equipment must be supervised at all times.

All work equipment, where the failure of said item could result in a significant risk of injury, are to be subject to at least an annual maintenance/inspection by a competent person/organization. Where legislation imposes specific duties to undertake inspections at set frequencies these will be carried out in accordance with the Regulations. The written records of the inspection and maintenance, should be maintained and be available for examination.

Annual inspection and maintenance will be carried out by Project Solver Ltd and records are maintained by Mrs A. Odunsi

Staff and pupils may not bring their own personal electrical appliances into the Establishment.

The Health & Safety Co-ordinator can advise on how to have equipment checked.

When work equipment has reached the end of its working life or is no longer required it must be written-off in the asset register and then disposed of safely. Under no circumstances may equipment be sold or passed-on to a third party.

[Click to go back to main index](#)

3.34 Work Experience and Young Persons

Students on work placements/experience are regarded in health and safety law as employees and therefore must be provided with the same health, safety and welfare protection given to other employees.

Work experience may be defined as a placement on an employer's premises in which a student carries out a range of tasks or duties, more or less as an employee, but with the emphasis on the learning aspects of the experience

Students who are under the age of 18, taking part in work experience/placements, are considered Young Persons under health and safety law. The Management of Health and Safety at Work Regulations require employers to specifically take account of young persons when carrying out their risk assessments.

If young persons have not previously been employed in the workplace, then existing risk assessments should be reviewed accordingly. The assessment of risks to 'young persons' must be carried out before their employment or work placement period begins.

Ms N Debernadis will be responsible for carrying out risk assessments and maintaining records. Significant findings will then be brought to the attention of students on work experience, and the measures they need to take to avoid the risk before they work in the area.

The establishment will ensure that the parents/guardians of children, i.e. those under minimum school leaving age (MSLA), are informed of the key findings of the risk assessment before the placement begins.

All young people and students on work experience will be provided with appropriate induction, information, instruction, training and supervision.

Any pupil undertaking work experience at this Establishment will be given an induction, which will be recorded using the Work Experience Induction Checklist.

Completed checklists are located with Mrs K. Poulter in the DHT Office.

[Click to go back to main index](#)

3.35 Working at Height

The Work at Height Regulations requires that, "every employer shall take suitable and sufficient action to prevent, so far as is reasonably practicable, any person falling a distance liable to cause personal injury'.

Under the Management of Health and Safety at Work Regulations the Employer has duties to undertake risk assessments including the duty to identify, assess and control risks on their premises.

This establishment will assess the risks from working at height and make plans to either avoid the work at height, or to do the work more safely.

Mr I. Zeolla will be responsible for carrying out the risk assessment for each activity involving significant risk whilst working at height and maintaining the

Where work at height cannot be avoided suitable and appropriate work equipment will be provided. It will be inspected, tested and maintained on a regular basis by a competent person and records will be kept.

An annual inspection of equipment used to work at height will be carried out by Mr I. Zeolla (Caretaker)

Staff using the equipment should carry out visual checks prior to every use. They must follow defined work procedures and safe systems of work whilst working at height. Any faulty equipment should be taken out of use immediately and the appropriate manager should be informed.

All staff members involved in working at height will be given full information, instruction and training in the use of any relevant equipment.

Further information can be found on HSE website www.hse.gov.uk/

Advice for teachers and classroom assistants is available in the HSE document "Keeping safe when working at height"

The HSE document "Practical guidance for schools on working at height"

The Ladder Association "Ladder Book"

[Click to go back to main index](#)

3.36 Workplace (Health, Safety & Welfare)

Employers have a general duty under the Health and Safety at Work Act to ensure the health, safety and welfare of their employees at work, and others who are not employees but use their premises.

The Workplace (Health, Safety and Welfare) Regulations expand on these duties and are intended to protect the health and safety of everyone in the workplace and to ensure adequate welfare facilities are provided for people at work.

The Regulations require employers to make provision for the following:

- Maintenance of a safe workplace, equipment and systems of work;
- Suitable and sufficient ventilation, lighting and indoor temperature;
- A clean workplace and furnishings with easy to clean surfaces;
- Sufficient work space with suitable work stations and seating;
- Floors and traffic routes of suitable condition and free from damage or hazards;
- The prevention of people falling from height, or being struck by falling objects;
- Windows (and other transparent/translucent surfaces) made of safe materials, that do not expose people to risks to their health & safety, and are able to be cleaned safely;
- Traffic routes organised to allow pedestrians and vehicles to circulate in a safe manner;
- Suitable and sufficient toilets and washing facilities;
- An adequate supply of drinking water;
- Accommodation for personal or work clothing, and adequate facilities for changing clothing where necessary;
- Facilities for rest and to eat meals.

This Establishment will ensure that suitable arrangements are in place to cover these provisions, so far as is reasonable practicable. In order to monitor this, a regular workplace inspection will be undertaken using a workplace H&S Inspection checklist.

Classroom workplace inspections will be undertaken by all Class Teachers on a termly basis.

Other areas of the school inspections will be undertaken by Ms C Pampellonne/Mrs A Odunsi/H&S Governor on a yearly basis.

Workplace inspection records will be kept by Mrs A. Odunsi

The responsibility for building and equipment maintenance lies with Mrs A. Odunsi (SBM)
Any building or equipment defects or hazards should be reported to Mrs A. Odunsi/Mr I. Zeolla
